BENEFITS

We supply you with an accurate record accepted by insurance companies & authorities. Up to date means more compatibility. Quickly records valuables & collections. You can forward / exchange the information easily if needs be.

Speedily processed during the inventory and easily stored. Information easily accessible via computer & DVD player.

Confirmation of recorded images at a glance. A simple worksheet for item valuation.

A signed and dated certificate confirming inventory completion.

Proof of date of inventory.

We back up our professional service with our written guarantee.

Additional information such as receipts & scanned documents can easily be added to the inventory and stored in a secure place.

Insurance & authorities will more easily accept the information as being a 'true' record of what was.

One copy for safe storage on-site ie firesafe. The other for off-site storage.

Easily add new items to the inventory at a later date. Information can be stored with the inventory or forwarded to us for an update.

We respect your privacy. We will only EVER keep your inventory data should you wish to take part in the AUP or OSS programs we offer.

Giving you the church 'Peace Of Mind'.

We want you to trust us fully. We understand everyone has different levels of trust & privacy!

You simply forward the information to us,

Aussie Home Inventories

FEATURES

Program

- Optional 'Inventory Vouchers' for family and friends.
- The Church Inventory

BENEFITS

we update your inventory record, supplying you with the update.

We will store your inventory in a SECURE off-site security box.

A visual 'walk around' of the premises stored easily on DVD.

Allows those close to you to get started with an Aussie Home Inventory.

We are professionals in this service, accurate and quick saving you the time! Having no insurance or being under-insured is a major common issue in Australia. We help you to get started on seeking suitable cover and correcting any under-insurance.

1. **THE QUIET CHURCH** – A digital photographic inventory is vital for a church. Insurance cover will only ever replace an item physically or by financial reimbursement. Often items in a church are non-replaceable. The church is a quiet place, often isolated, visited rarely at night throughout the week and prone to increased vandalism when compared to homes / businesses. Stained glass windows can easily be damaged beyond repair and non-replaceable items stolen. A visual record can be used in helping to restore, replace or assist in returning items via the authorities.
